Distance Delivery

In an effort to present a more complete picture of the offerings at member institutions, HLC is exploring the feasibility of collecting information regarding the institutional program offerings and publishing them in the ISR Report. At this time, HLC is documenting member institutions' distance delivery offerings through HLC's distance education stipulation. HLC stipulations identify the approval level regarding an institution's offerings. HLC is not displaying up-to-date information regarding each distance education offering at an institution. More information about this project will be available in the coming year.
