Transfer partnerships

Pima has streamlined the path toward a bachelor’s degree by setting up transfer partnerships with more than a dozen colleges and universities across the nation.

These agreements help to clarify the acceptance of the credits earned at Pima when you transfer to another institution. That saves you time and money as you work toward your bachelor’s degree.

Some of our partnerships provide even more benefits to PCC transfer students by waiving application fees, providing discounts on tuition, or providing scholarships to qualified students.

Talk to a Pima advisor about how earning an associate’s degree at Pima can be your first step toward a more affordable bachelor’s degree.
