AND PRESCOTT COLLEGE

Introduction

Prescott College and Pima Community College District campuses and learning centers are committed to providing greater educational opportunities and services for students transferring between institutions. This commitment strongly supports the goal of seamless transfer that embraces the principle that transfer students should not be required to repeat competencies already achieved.

The purpose of the agreement is to enable Pima Community College students who transfer to Prescott College to carry with them the credit they have already earned for as much relevant study as possible. Therefore, it is understood and agreed that courses taken at any Pima Community College campus or learning centers are considered equally transferable. This agreement provides a structure through which transfer articulation can be supported.

- Only college-level courses numbered 100 and above and with a grade of P, C or better will be accepted for transfer. These credits may be applied as an elective within a competence (major), breadth (minor), general education requirement, or an exemption or replacement for a required course and applied toward a Bachelor of Arts degree.
