

Pima Community College Scholarships News and Deadlines

Everything about finding and applying to scholarships - both Pima Community College scholarships and external scholarships - is about to get easier for you. Read below for how to be matched to scholarship opportunities that are relevant to YOUR life situation.

The Office of Financial Aid and Scholarships is introducing a new easy, mobile, personalized process that makes finding and applying for scholarships easier. It's easier because you don't need to find scholarships at all—the system will match you to your best fit opportunities. Providing the best student experience is important to us, and we heard your feedback loud and clear. You want an easy, straightforward, mobile-friendly way to apply for scholarships that you are eligible for.

We're proud to say the first phase of **Pima Community College's Scholarship Universe** is available to all Pima Community College students with an active MyPima Account. Right now students will be able to access the "external" scholarship matching database providing a single source of thousands of vetted external scholarships matching students' academic profile and general application answers.

- First, you'll need to sign in using your MyPima login and password
- Next, you'll start answering a lot of questions, note that the system auto-saves your answers so there is no save button.
- As you start answering questions you'll notice the two black markers on the top right-hand corner start changing and the numbers increasing, one marker indicates the number of matching possibilities and the other marker indicates the possible scholarship dollar amount.
- You can click on the markers and you'll be directed to the list of opportunities that are available for you (the student) to apply.
- All Scholarship Opportunities in One Place – PCC scholarships added soon.
