

2018-2019 Federal Direct Unsubsidized Loan Request With No Parental Data Instructions

What is the difference between the Federal Direct Subsidized and Unsubsidized Loans?

Subsidized loans have a fixed interest rate of 4.4545%* and the government pays the interest while you are in school (enrolled for 6 credits or more). Your eligibility is based on your financial need as determined by the Free Application for Federal Student Aid (FAFSA). Please refer to the [Pima Loans Webpage](#) for important new regulations on how your subsidized loans may be impacted by the length of your program and/or program study changes.

If you are interested in receiving a subsidized loan you must complete the 2018-2019 FAFSA at www.fafsa.ed.gov. Pima Community College's school code is 007266. If you are determined by the application to be a dependent student, you will be asked to include your parents' information on the FAFSA. If for any reason you do not include their information, you will only be eligible to receive unsubsidized loans.

Unsubsidized loans have a fixed interest rate of 4.45%* and you, the borrower, will have to pay all interest that accrues on the loan. The interest begins accruing at the time of the first disbursement. Your eligibility is not based on financial need but may be impacted by other factors determined by your FAFSA.

Federal Direct loans are available to students who have not reached their lifetime borrowing limits.

***NOTE:** All interest rates stated are fixed rates for the life of the loan. The interest rates for federal student loans are determined by federal law. If there are future changes to federal law that affect federal student loan interest rates, they will be published on <https://studentaid.ed.gov/sa/types/loans/interest-rates> to reflect those changes.
